Preparing the Portfolio: ensuring success

The Portfolio seeks to demonstrate the depth and breadth of the student's capabilities and skills through examples of his/her work. The Link Modules' portfolio can be viewed as a purposeful, self-reflective collection of the student's work, generated over a two-year period, during the process of teaching and learning.

- Ensure student's Examination Number (compulsory) is on the outside cover of the LCVP Portfolio
- Use a method of binding that does **not have plastic covered pages**, A4 white paper with a spiral or spine bound (ensure to stable if using a spine bound)
- Portfolio items should be **perfect**, ensure consistency with a regular font, **Times New Roman** size 12 is recommended, headings size 14 and margins of 2.5 - 3.75 cms
- Ensure the following are **100% perfect: Font, spelling, layout, grammar, punctuation and spacing**
- Include a **contents page** with the list of **Core items**: 1. Curriculum Vitae, 2. Enterprise/Action Plan, 3. Career Investigation and 4. Summary Report and **Optional items**: 1. Diary of Work Placement, 2. Enterprise Report, 3. My Own Place Report and 4. Recorded Interview/ Presentation. Place the Portfolio items in the order of the **LCVP marking scheme**
- Place an insert page in front of **each** item with its **title** on it e.g. Curriculum Vitae and then the Portfolio item Curriculum Vitae, etc
- If submitting the Recorded Interview/Presentation remember to include this item in your contents page
- Place a copy of the **video sequence sheet** in the Portfolio with the individual student name and Leaving Certificate number highlighted on it

Tip: *A good idea is to hand number all pages to ensure that they are presented in the correct order. However the detailed reports will have the page numbers word processed.*

Preparing the Portfolio: ensuring success

Encourage Students to ensure they have adhered to the Syllabus, NCCA guidelines (introductory pages only) and marking schemes before submitting work for assessment.

- Ensure that the Portfolio is the students own work and represents their individual effort by encouraging a personal objective, research method etc
- Ensure that students present material generated as a result of the **Link Modules ONLY**
- Portfolio items **must** relate to a number of **different activities**.
- Before submitting the Portfolio each student should check his/her work for errors of spelling, grammar and **word count**
- Make 2 copies of the final LCVP Portfolio; one can be used as a revision tool for the written paper
- Viewing the Link Modules scripts in September with students can be a very worthwhile experience
- Students must have a copy of their draft work
- Plan and evaluate all LCVP activities, which will provide an excellent base for Portfolio items
- Apply the **learning cycle: Plan, Experience, Evaluate and Record (PEER)**
- Submit **only six items** for final assessment
- Remember the LCVP is predominately Enterprise and Preparation for the World of Work and this should be represented in Assessment
- The **2008 Journal** has a Check List for Optional Portfolio items and the **2007 Journal** has a Check List for Core Portfolio Items. These are ideal tools for students to help each other mark and assess Portfolio items before submitting to the Link Modules Teacher. Journals are available on our Website and LCVP CD Rom.

The specific learning outcomes SLOs provide an excellent writing frame

Submit only **six items** for final assessment of Portfolio.

Some ideas:</p> <ul style="list-style-type: none"> ■ Describe the work ■ Training ■ Skills used ■ Learn anything new ■ Legislation and Slos (syllabus) for content <p>Evidence of analysis in different situations might include:</p> <ul style="list-style-type: none"> ■ How the student mastered unfamiliar tasks ■ How he/she overcame problems or responded to challenges ■ The perception of how others viewed his/her performance ■ How the student related to customers/staff ■ What you did well? ■ Perhaps a daily Evaluation <p>Ensure not to repeat daily entries. A good idea is to use the SLOs to frame your entries. <i>Again the use of templates/form type often disadvantages the student if they only answer the questions asked, often missing out on sections.
